

# Lucas's Website

## Lucas Nathe

This is a working space for my personal website. I am currently a Research Analyst in the Office of Research at the Consumer Financial Protection Bureau.

### What I've been working on lately..

1. In an attempt to rebuff my Python, webscraping, and geocoding skills, I attempted to explore the determinants of Fringe Bank location in my hometown of Chicago, starting with proximity to a traditional bank in this Jupyter Notebook.
2. Scrapping data on brewery production and revenue from the Alcohol & Tobacco Tax and Trade Bureau [<https://www.ttb.gov/beer/statistics>], to generate the Herfindahl-Hirschman Index over time. [[https://lmnathe.shinyapps.io/brew\\_app/](https://lmnathe.shinyapps.io/brew_app/)]
3. Plotting a few google trend search results by DMA against the number of COVID-19 cases by month. [<https://lmnathe.shinyapps.io/gtrendsapp/>]. Note, the shinyApp currently takes about 30 seconds to launch.
4. A clean function to pull in CRA disclosure files county loan totals.. [[https://github.com/lmnathe/read\\_cra](https://github.com/lmnathe/read_cra)]
